After Truth

Justice, TRCs, and Related Aftermaths

A generation after the first Commissions in Latin America, this two-day symposium asks: what kinds of futures were inaugurated through these enactments? What kinds of political projects have they legitimized? What is the status of the truth sought and produced through these processes? What are the afterlives of the vast evidentiary archives that they generated?

King Juan Carlos Center of New York University • 53 Washington Square South
free + open to the public

10/22
